

INVITATION TO ITALY

Verona, August 13th 2007

Dear Prof Searl,

I am really pleased that you published about our proposal of developing the SEG in Italy in your websites.

This letter has the purpose of officializing the invitation and of defining the logistics of your first visit to our Italian facility.

Gianluca D'Aniello (Luca) and I have the dream of realizing a fully functional 3-ring SEG prototype by the end of 2007.

We are aware that it is an extremely challenging task but we are sure that with your assistance, AND THANK TO IT ONLY, we will be able to:

CREATE AN AFFORDABLE AND NON-POLLUTING ENERGY SYSTEM FOR THE BENEFIT OF THE ENTIRE HUMAN KIND.

Although it will require a consistent financial effort from our families, the project will be entirely financed by Luca and me; therefore no external (and uncertified) contribution will be required.

WE WILL COMPLY WITH YOUR DIRECTIONS AND ETHICAL REQUIREMENTS IN DEVELOPING AND DELIVERING THE SEG IN ITALY AND THE WORLD.

We will make sure to facilitate your visit at best, and according to your requirements.

Our goal is that, during your visit, we will not only show you the facility but we might define a work plan and start exchanging some technical information

Our proposal is a *2 day visit from August 31st to September 1st*

We also understand that you might want to bring an assistant (i.e. Terry or Bobby) therefore this invitation can be extended to him.

We will take care of travel expenses and of your accommodation.

Our recommended flight will leave from London Stansted and land in Verona. It will last 2 hours.

I am really looking forward a positive acknowledgment from you.

Take good care

Ing. Mirco Gregori

TENTATIVE MEETING AGENDA

DAY ONE (Friday August 31st)

- 11:40 – 14:40 Flight Stansted-Verona; Mirco will pick you up
